- Heroku (Deployment)
- Railway(Deployment)

### ABOUT ME

I'm a web developer with practical knowledge in Javascript, React, Node, Express, and HTML, among others.

I enjoy creating websites using the technologies I've learned and applying the technologies I'm learning to them. In my free time, I like to learn new technologies, reinforce my skills and logical thinking and practice my English.

### WORK EXPERIENCE

04-2022 / 05-2022

Pet Application

[Academic] Henry Academy DEPLOIMENT

- Develop an application that allows the users to see, filter, and find by name various dogs breeds
- The application contains a landing page, pagination by eight dogs, favorite section, among other features

06-2022 / 07-2022

Synnet Application

[Academic] Henry Academy DEPLOIMENT

- Develop an application with other eight students that allows the users to register and participate in various tournaments of tennis as well as pay for the tennis games
- The application contains login and registration, a gallery, a chatbot, an administration panel, a card payment method, and an algorithm for user performance in the games among other features

### LANGUAGE

- **English B2 (in progress)**
- **Spanish Native**
